USD	1,232.2	Mio. €	

Conditions for the postponement of the maturity of the Pfandbriefe	The postponement of the maturity date is necessary to avoid the insolvency of the Pfandbrief bank with limited business activities (prevention of insolvency), the Pfandbrief bank with limited business activities is not overindebted (no existing overindebtedness) and there is reason to believe that the Pfandbrief bank with limited business activities will be able to meet its liabilities then due at any rate after expiry of the maximum possible postponement period, taking into account further postponement possibilities (positive fulfillment forecast). See also, in addition, section 30 (2b) PfandBG.
Powers of the cover pool administrator in the event of postponement of the maturity of the Pfandbriefe	<p>The cover pool administrator may postpone the due dates of the redemption payments if the relevant requirements pursuant to Sec. 30 (2b) PfandBG are met. The administrator shall determine the postponement period, which may not exceed 12 months, in accordance with necessity.</p> <p>The cover pool administrator may postpone the due dates of principal and interest payments falling due within one month of his appointment to the end of this monthly period. If the cover pool administrator decides in favor of such a postponement, the existence of the prerequisites pursuant to § 30 par. 2b PfandBG shall be irrefutably presumed. Such postponement shall be taken into account within the maximum postponement period of 12 months.</p> <p>The cover pool administrator may only exercise his authority uniformly for all Pfandbriefe of an issue. In this connection, the maturities may be postponed in full or on a pro rata basis. The cover pool administrator must postpone the maturity for a Pfandbrief issue in such a way that the original order of servicing of the Pfandbriefe which could be overtaken by the postponement is not changed (prohibition of overtaking). This may result in the maturities of later maturing issues also having to be postponed in order to comply with the prohibition on overtaking. See also, in addition, section 30 (2a) and (2b) PfandBG.</p>

(1) - Of which taken into own inventory: 972.0 Mio. €

(2) - Of which taken into own inventory: 1394.0 Mio. €

(3) - dynamic method according to §5 BarWertVO / static method according to §6 BarWertVO

(4) - The statutory overcollateralization requirement is composed of the present-value collateralized overcollateralization pursuant to Sec. 4 (1) PfandBG incl. interest rate and currency stress scenarios and the nominal-value collateral

(5) - Effects of a maturity shift on the maturity structure of the Pfandbriefe / shift scenario: 12 months. This is an extremely unlikely scenario, which could only come into effect after the appointment of a custodian.

(6) - The previous year's data will not be published until Q3 2023 in accordance with section 55 of the PfandBG.
